1. Cup the respirator in your hand with the nosepiece at your fingertips allowing the headbands to hang freely below your hands
2. Position the respirator under your chin with the nosepiece on the bridge of your nose placing the top strap high on the back of your head and the bottom strap below your ears
3. Using both hands, mould the nosepiece to the shape of the nose for a tight fit
4. Test the fit by cupping both hands on the respirator and inhale deeply.
5. If air leaks around the edges, adjust the nosepiece and straps for a better fit

IMPORTANT

Before use, the wearer must read and understand these instructions. Keep for reference.

Single use respirators against solid and liquid aerosols are classified according to one of three categories FFP 1, FFP 2 and FFP 3. Before reading the following information, please check the category to which the respirator belongs, this is indicated on the packaging and on the respirator.

Applications:

FFP1: protection against non-toxic solid and liquid aerosols e.g. oil mists in concentrations up to 4.5 times MAC/OEL/TLV or 4 x APF.

FFP2: Protection against nontoxic and low to average toxicity solid and liquid aerosols eg oil mists in concentrations up to 12 x MAC/OEL/TLV or 10 x APF.

FFP3: Protection against nontoxic and low to average toxicity solid and liquid aerosols eg oil mists in concentrations up to 50 x MAC/OEL/TLV or 20 x APF.
