TESTED PROPERTY	REQUIREMENTS	RESULTS	RATING
Textile fiber products identification and wool products labeling act (16 CFR 300/303)			
2t-3t			PASS
WMSL-GB-10000-USA Must be visible at point of sale. If label is not visible through packaging, fiber content must be repeated on packaging. Generic fiber name must be used and the contents spelled correctly and listed in descending order of predominance. Where textile fiber products subject to the Act contain (1) any wool or (2) 5% or more of the total fiber weight of recycled wool, such fibers shall be designated and disclosed as wool or recycled wool. Note: To determine the actual percentage, refer to the physical characteristics section for Fiber Content AATCC 20/20A/ASTM D629. If lab analysis does not match claim, then the label will fail. Blends: Maximum 3% Tolerance. Single Fiber: 0% Tolerance.		Meet	
Note: The vender stock # (style #) and the size submitted for testing on sewn-in lable must also be verified against the TRF at production and when available at Pre-Production. Please note that the vender stock # on sewn in label may not be available on national/licensed brand apparel. Please refer to special instruction for additional information.			
In lieu of testing, a passing test report may be submitted. See Document Acceptance list for document parameters.			
Wearing apparel, bolt fabric, and textile products (If care label present) (16 CFR 423)			
2t-3t			PASS
WMSL-GB-10000-USA Shall be tested to substantiate care label content. Items not required to contain a care label but having a label present shall be laundered according to label instructions only. A general appearance evaluation shall be conducted.		Meet
